

AI-Powered Lead Generation System

Date	26 June 2026
Team ID	XXXXXX
Project Name	AI-Powered Lead Generation System
Maximum Marks	3 Marks

The project ideas were discussed and evaluated based on feasibility and importance. After comparing all the ideas, the **AI-Powered Lead Generation System** was selected because it is easy to implement, useful for students, and meets the project objectives.

Step 1: Brainstorm and Idea Listing

Various project ideas related to **Artificial Intelligence, Natural Language Processing, and student learning support** were identified and grouped based on their category. This brainstorming process helped the team explore different ideas before selecting the final project idea.

S. No	Team Member	Idea / Suggestion	Category	Group No.
1	Hemamalini BORA	Develop an AI model to identify and score potential leads	AI & Machine Learning	1
2	Trivenisandhya Irla	Recommend personalized outreach strategies based on lead profiles	Lead Qualification	1
3	Kappala Salomi Vennela	Create an interactive dashboard to visualize lead analytics and conversion trends	Data Visualization	2

4	Naga Uday Bhaskar Erothu	Build a Streamlit web application for lead management and prediction	User Interface & Deployment	3
5	Chakri Kumar Gubbala	Design a database to store lead information, interaction history, and AI predictions	Data Management	3
6	All Team	AI-Powered Lead Generation System	AI, Machine Learning & Predictive Analytics	1

Step 2: Idea Prioritization

The identified ideas were evaluated based on their feasibility and importance. After comparison, the **AI-Powered Lead Generation System** was selected due to its high practicality, technical feasibility, and ability to automate lead identification, scoring, and customer engagement using Artificial Intelligence and Machine Learning.

Group No.	Final Idea	Feasibility	Importance	Priority	Selected
1	AI-based Lead Identification and Lead Scoring using Machine Learning	High	High	1	Yes
2	Personalized Lead Recommendations and Customer Outreach using Generative AI	High	Medium	2	Yes
3	Voice-Based Lead Qualification and Customer Interaction Analysis	Low	High	3	No
